REQUESTS FOR QUOTATIONS

**APPOINTMENT OF A SUITABLY QUALIFIED, EXPERIENCED SERVICE PROVIDER TO
DEVELOP A CONCEPT NOTE FOR A FULL-SCALE ADAPTATION COSTING FOR
SOUTH AFRICA**

1. INTRODUCTION

The Presidential Climate Commission (PCC) is a multi-stakeholder body established in 2020 by the President of South Africa to advise on the country's climate change response and support a just transition to a low-carbon climate-resilient economy and society. The commission comprises of government ministers and 22 commissioners that represent diverse perspectives of social partners, including academia, business, civil society, labour, and youth. The Commission emanates from the Presidential Summit held in October 2018, when social partners agreed that a statutory entity should be formed to coordinate and oversee the just transition towards a low-carbon, inclusive, climate-resilient economy, and society.

The PCC is currently hosted at the National Economic Development and Labour Council (NEDLAC), owing to its legal establishment processes currently underway. Nedlac requires a suitably qualified, experienced service provider to provide a comprehensive Concept Note on a National Adaptation Costing Exercise for South Africa

2. BACKGROUND

The National Economic Development and Labour Council (Nedlac) is a schedule 3A public entity that falls within the Department of Employment and Labour. Nedlac is the vehicle by which Government, labour, business, and community organizations seek to cooperate, through problem-solving and negotiation, on economic, labour and development issues and related challenges facing the country. The Presidential Climate Commission (PCC) is a programme hosted at Nedlac.

The IPCC 6th Assessment Report released in 2022 is clear that the world is already at +1.2°C compared to pre-industrial levels. On the back of this higher level of heat in the atmosphere and oceans, we are already witnessing the devastating impacts of global warming. In addition to new record high temperatures and heatwaves, we are also experiencing floods, droughts, high-energy storms, and wildfires. There is a need for robust Adaptation interventions to increase resilience to climate change. There has already been major loss and damage attributed to climate change. There is a need for a full-scale adaptation, including loss and damage, costing exercise for the country. To date the PCC has completed an Adaptation Costing Methodology Framework and would now like to commission a concept note to advise the detailed methodology of a National Climate Change Adaptation Costing Exercise.

3. SCOPE OF WORK

The successful service provider will be required to deliver on the following scope of work:

3.1. Inception Phase

Inception meeting

The appointed service provider will engage in a PCC organised inception meeting, with a view to agree on the overall implementation methodology and timelines. This meeting will also establish the project steering committee (PSC) for this work.

Inception report

Following the engagement with the PCC, the appointed service provider will be required to deliver an inception report capturing the discussions and decisions as formulated during the inception meeting.

3.2. Literature review – Complexities in costing of adaptation initiatives

The service provider will be expected to conduct a domestic and international literature review, to understand the complexities around the costing of adaptation initiatives. The review should assess both the developed and developing country contexts, at least three (3) countries from each context. The barriers analysis review should include:

- Funding design options;
- Its ability to respond and absorb various adaptation international financing mechanisms;
- Its capacity design and management approach; and
- An understanding of the governance mechanisms, including monitoring and evaluation.

Following this process, the service provider will be expected to deliver a report on the complexities of a National-level Climate Resilience and Adaptation Costing. This report will be considered, reviewed and signed-off by the Project Steering Committee. Following which the report will be tabled to an expert group agreed upon during the inception meeting and/or the PCC's Resilience and Adaptation Working Group.

3.4. Concept Note – Feasible methodology for a National Climate Change Adaptation Costing

Building from the literature review exercise conducted above, the appointed service provider will be required to map out a feasible methodology for Costing National Climate Change Adaptation Actions. This should also include review inputs and recommendations from the experts' session. An outcome of this process will be a draft concept note to be considered, reviewed, and signed off by the PSC.

- Offer a succinct analysis of the challenges associated with the complexity of a National Climate Change Adaptation Costing Exercise,

- Map out a feasible methodology and roadmap for a National Climate Change Adaptation Costing Exercise.

3.5. Project meetings and Close out meeting

The service provider may be required to participate in an hour long project management meeting, providing updates on the ongoing process for deliverables. These will be limited to three meetings for the project duration and will be agreed upon during the project inception meeting.

Following the successful delivery of the project scope above, the appointed service provider will engage in an hour-long meeting with the PCC to ensure alignment around project completion and finalization of all necessary deliverables.

4. DELIVERABLES

In fulfilling the scope of work as detailed above, the appointed service provider will be expected to deliver on the following:

Project Scope	Deliverable	Timelines
Inception Phase	Inception Meeting Participation	One (1) week after signing of contract
	Inception report	Two (2) weeks after signing of contract
Literature Review	Report on National-level Climate Resilience and Adaptation Costing	Six (6) weeks after signing of contract
Concept Note	Concept Note on the Feasible methodology for a National Climate Change Adaptation Costing	Seven (7) weeks after signing of contract
Project Close out meeting	Participation in the project close out meeting	Eight (8) weeks after signing of contract

5. PROJECT TIMELINES

The project must be completed within a period of eight (8) weeks after the signatory of the service level agreement.

6. PROJECT TEAM

The project team will include the following expertise and skill-sets to successfully deliver on this work:

- A detailed understanding of public policy on adaptation and disaster management, development economics, and policy relating to a just transition and the interface between climate, development, and people.
- Extensive experience in strategic planning and programme management.
- Excellent analytical abilities and report writing.
- Experience in stakeholder engagement, communications, and facilitation.
- Demonstrable presentation and communication skills and experience, i.e. through publications, conference reports, etc.

- 10 years' experience working in the key sectors of South Africa for climate adaptation responses, including agriculture, health, tourism, and water.
- Very good project management and client relation skills, including conflict management skills.
- Project team technical backstopping is a requirement.

The team members will amongst others comprise of the team leader, a climate change expert, including a climate finance expert.

7. PROJECT GOVERNANCE

The PCC, through its Secretariat will be represented in the Project Team comprised of the appointment service provider, representatives from the PCC secretariat and NEDLAC.

During the inception meeting, the PCC together will further propose representation for the Project Steering Committee (PSC), which will meet bi-weekly, to consider the progress of the project and reports from the appointed service provider.

The PCC Secretariat will lead all working group and expert consultations with technical backstopping from the service provider.

8. REQUIREMENTS OF THE SERVICE PROVIDER

The successful service provider must provide the following to demonstrate experience:

- 8.1. Detailed c.v. of the project leader/manager and team members
- 8.2. At least three short descriptions of previous completed similar assignments, including:
 - Assignment name
 - Signed reference letters from contactable references linked to these assignments.

9. SUBMISSION OF DOCUMENTS

In addition to the requirements of 8.1. to 8.2. above, service providers must submit the following documents:

- Valid BBBEE certificate or sworn affidavit
- Completed SBD forms
- Proof of CSD registration

10. SELECTION AND EVALUATION CRITERIA

10.1. Evaluation criteria

The following evaluation criteria will be utilised:

5= Excellent, 4 = Good, 3 = Satisfactory, 2 = Poor, 1= Unacceptable

The below matrix will be used in scoring the submissions:
